

## Blue King Wash Down Gun Model AKMN011-B

### Product description

The Blue King AKMN011-B is a superior wash down gun designed for comfort, durability, and efficiency. Its compact size and ergonomic handle ensure a comfortable grip, enhanced by a velvety soft rubber surface. The precisely positioned nozzle tip delivers an exceptional spray pattern, allowing easy adjustment from a wide cone to a narrow jet. The flat nozzle design prevents dripping during spraying and reduces water consumption by at least 16% compared to regular cleaning guns. This model is available without trigger protection and includes features for quick and tool-free nozzle and lever adjustments.

### Key Features

- Variable jet with precise adjustment via rear set screw
- Flat nozzle design prevents dripping and reduces water usage
- Double seal for enhanced security
- Quick nozzle and control lever adjustment without tools
- Clear indication of spray direction
- Maximum pressure and temperature indicators
- Ergonomic trigger with comfortable finger feel
- Velvety soft rubber grip for added comfort
